Catalis N.V.: Annual General Meeting 2005

Eindhoven, July 19, 2006 – Today the Annual General Meeting for the fiscal year 2005 of Catalis N.V., which is listed on the General Standard at the Frankfurt Stock Exchange, took place in Eindhoven. Approximately 29% of the company's capital was represented and all items of the agenda were approved.

The board presented in its report to the shareholders the successful development of the company for the previous financial year 2005 and explained the company's strategy for a further profitable and progressing diversification into new and related testing markets. "Our overall vision is to establish Catalis N.V. as the leading quality assurance company for any digital content on all possible delivery platforms to all available devices" said the Board of Management of Catalis N.V.

Catalis N.V. is a leading provider of quality assurance services for the digital media industry.

Through subsidiaries in the United States, the United Kingdom and Poland Catalis N.V. offers test services (content verification, functionality testing, compatibility testing) on online and physical media and a wide range of additional services to the media industry. Customers are in particular the big content providers in the areas Film, Games and Software.
